

The experience network

SEN+ is an internet tool for Social Networking, Knowledge sharing and training.

SEN+ is full of interesting applications and features that will enable the user to communicate with others, receive tips on how to adapt the environment, receive training and create pages to share knowledge and experiences with others. To do this SEN+ offers powerful tools such as forums, blogs, videos or images that are versatile and easy to use.

SEN+ is addressed to companies, associations, municipalities, etc.
